News: Spike Jones Joins Communications Engineering Inc. (CEI)

Michael R. "Spike" Jones Joins Communications Engineering Inc. (CEI) As Associate Vice President-Business Development

Production and System Integration Veteran Adds 30 Years of Experience to CEI's Growing Portfolio of Media Services

Newington, VA – April 7, 2011– [Communications Engineering, Inc.](http://www.commeng.com)

(CEI) an award-winning multi-media consulting, design and integration company, is pleased to announce the appointment of [Spike Jones](#) to the newly created position of Associate Vice President-Business Development. Mr. Jones joins CEI with 30 years of experience in video and audio system integration, high performance networking and live television production engineering. Spike will be responsible for developing new market and business opportunities through CEI's growing portfolio of broadcast, audio visual and multi-media services.

Prior to joining CEI, Mr. Jones was Senior Director, Business and Solutions Development for the Canadian system integration company, Azcar. Previously, Spike held positions with the Media and Entertainment group at Marconi Communications (formerly Fore Systems) developing wide area video network systems for broadcast, military and government clients, as well as 20 years in live production engineering with Unitel Mobile Video in Pittsburgh, PA and CFTO/Glen Warren (now CTV) in Toronto, Ontario Canada.

"We are thrilled to welcome Spike to CEI and look forward to the contributions he will make to both our customers and our business," commented [Lawrence Brody](#), CEI's President and Chief Executive Officer. "Spike brings a wealth of experience and valuable industry insight to CEI from which both our staff and customers will benefit."

Mr. Jones will serve on CEI's management team, playing an integral role in developing and executing the company's strategic direction. Executive Vice President and Chief Operating Officer [John Wesley Nash](#) said "Over the past 25 years, CEI's success has come from a relentless commitment to technical leadership and customer satisfaction. Spike has earned a strong reputation for innovative technical thinking and strong business acumen which fits well in helping CEI continue to execute this challenging vision for the coming years."

"I am absolutely delighted to be joining CEI as Associate Vice President - Business Development and look forward to collaborating with CEI's Sales, Engineering and Implementation teams. CEI is the multi-media industry's preeminent system integration

company and I am very pleased to be joining such an outstanding organization and leading the effort to expand CEI's business and market opportunities," said Jones.

About Communications Engineering, Inc.

Headquartered just south of Washington, D.C. in Newington, VA, CEI is a global, premier full-service, system consulting, design and implementation company focused on the television broadcast, audio visual and multi-media industries. The company also offers complete equipment service, support and training, and supplies products and services to a wide range of large, medium and small commercial clients as well as non-profit and government agencies.
