Jim Conley

Business Surge Promotions for CEI 'Top Guns.'

Newington, VA – 15th June 2006 – CEI, the award-winning US-based Broadcast Systems Integration company, has announced several new engineering promotions in response to a surge in demand for CEI's expert engineering services.

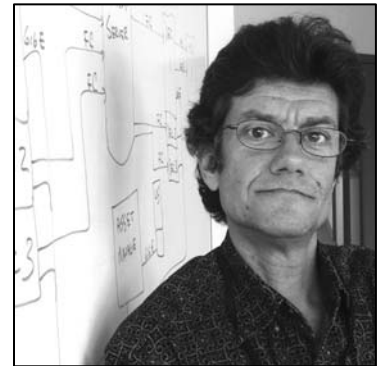

CEI's Director of Engineering, **Jim Conley**, has been promoted to the position of Senior Vice President, Chief Technology Officer. Mr. Conley's role will be to identify high technology solutions for CEI clients. He will also be responsible for leading CEI's Quality Assurance and Engineering Best Practices Program.

Top CEI Project Director, **Jay Brown**, has been promoted to the position of Vice President of Engineering. Mr. Brown will lead CEI's Engineering Department providing critical oversight and coordination on all CEI Client Projects.

Raef Alkhayat

Expert engineer and Project Manager, **Raef Alkhayat**, will assume the role of Director of Engineering. Mr. Alkhayat will lead CEI's Design Engineering Teams in developing and delivering leading technology solutions.

Jay Brown

"Jim, Jay and Raef have been a key part of our success, and we are thrilled to promote them to these important new positions. They will play critical roles as CEI's client base continues to grow through engineering excellence," said Larry Brody, President of CEI President.

Background:

CEI, located in Newington, Virginia, is a leading United States Systems Integrator. The company has helped to define the leading edge of systems engineering and implementation for the communications industry since the mid 80's.
